

Participating is easy!

- 1 Download the mannequin we have prepared for you.

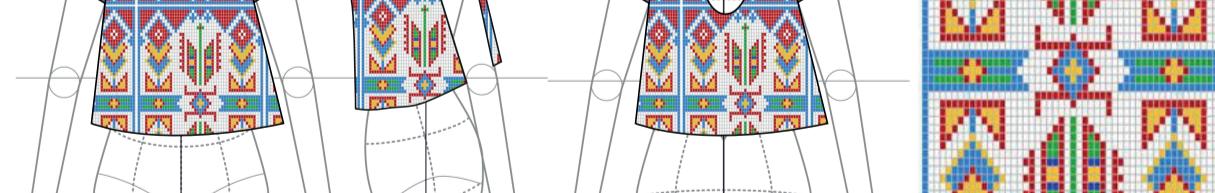

- 2 Draw your outfit with Adobe Illustrator / Corel Draw on the mannequin to keep the proportions. Delete the mannequin, only present the garments.
Alternatively, you can print the mannequin and draw your ideas on top of it. Later, you just scan it and present it.

- 3 The presentation of the garment has to be from the front, lateral and back sides. You can leave the mannequin in this case.

- 5 On the same page, you can add a zoomed-in view of the print you create.

- 6 Remember that you will have to upload the files in JPG. Save your original artworks. Those files could be requested in case you win.

Good luck!
